Ms. Sheila M. Meyer, Treasurer  
Village of Grantsburg Municipal Water Utility  
416 South Pine Street  
Grantsburg WI 54840-7932

1998 Analytical Review DWCCA-2330-PJL

Dear Ms. Meyer:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review of the Property Tax Equivalent schedule on page W-7, we noted that you reported \$77,892 as the tax for 1994. Our records indicate that the tax equivalent for 1994 was \$54,195. Please explain the difference and also explain how the adjustment of \$15,772, which is referred to in the footnotes for page W-7 in the 1998 report, is included in your calculation.
2. During our review, we noted that the Total kWh used for pumping for the year reported on the Source of Supply, Pumping and Purchased Water Statistics schedule is 122. However, \$10,200 is reported in the Operation and Maintenance Expense schedule for power for pumping expense. At an average cost of \$.06 per kWh, 122 appears low. Please indicate if it should be 122,000, or otherwise correct this number.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege  
Financial Specialist  
Division of Water, Compliance, and Consumer Affairs

### Hydrants and Distribution System Valves (Page W-18)

LACK OF MANPOWER AND TIME RESTRAINTS MAKE IT VERY DIFFICULT TO EXERCISE A SUFFICIENT NUMBER OF VALVES EACH YEAR. 111 DISTRIBUTION VALVES WERE OPERATED IN 1996 AND 67 WERE OPERATED IN 1997.
